

## 100% PERFORMANCE GUARANTEED

### Ultimate Protection

Shield your vehicle or vessel from climate extremes and contaminants that cause premature aging of the paint, oxidation and fading.

### Superior Paint Revitalization

Restore aging and faded paint and gel coat to its original look and brilliance.

**FlightShield** is a crystal clear nano coating that was originally developed for the aerospace industry to protect and enhance the paint on aircraft. FlightShield has now expanded to the automotive and marine industries and is available through our network of authorized applicators.

FlightShield chemically bonds to paint to become a new surface and protective layer offering an ultra smooth, high gloss and resistant coating. This coating stands between harmful contaminants and the surface, providing exceptional protection and gloss retention. FlightShield also offers the finest paint revitalization system in the industry. Our revolutionary process restores paint and gel coat to look like new. We guarantee it!

## Benefits of FlightShield

### Paint Protection

FlightShield protects by providing a barrier to harmful things like climate extremes, UV rays, dirt and bugs. The product cures and bonds to the surface creating a long lasting and durable finish.

### Paint Revitalization

FlightShield paint revitalization system removes years of oxidation and contaminants to reveal a brilliant and flawless finish.

### Paint and Gel Coat Life Extension

FlightShield extends life of the paint or gel coat by providing a protective barrier between the painted surface and the harsh climate, repelling contaminants and harmful environmental elements.

### Cleaning Expense Reduction

FlightShield reduces cleaning expense by repelling contaminants that can harm painted or gel coat finishes. Simply put, your vehicle or vessel will stay cleaner for longer, requiring less cleaning maintenance.

### Maximized Appearance

FlightShield's high-gloss finish sets your vehicle or vessel apart from the rest—and is sure to stand out at the lot or on the dock.

### Environmentally Friendly

FlightShield is better for the environment because it saves water and reduces the amount of pollutants that could enter waterways from washing. The FlightShield dry-wash system completely eliminates the need for water.

## Applicator Network

We have a nationwide network of authorized applicators who are ready to armor your vehicle or vessel! All FlightShield applications are individually registered and covered under the FlightShield Protection Warranty to assure that your vehicle or vessel is maintained with the highest level of protection.
